  Computer and Network Engineering *Jul 2016 - Jun 2019*

Informal:

- **Bootcamp DumbWays Indonesia**
  Full Stack Developer *Dec 2025 - Mar 2026*
- **LPK Plus Alpha Training Center**
  Japanese Language *Jul 2019 - Jun 2022*

Project

- **U-Short**

  U-Short is a simple and fast URL Shortener and QR Code Generator built with Golang. The application uses server-side rendering with Go templates and HTMX for dynamic interactions without full page reloads.

  Live: https://u-short.fly.dev

- **Yellow Store**

  Yellow Store is a mini e-commerce application built with Next.js and Supabase, featuring Midtrans payment integration, realtime order updates, and a secure admin dashboard with Supabase authentication. The UI follows a yellow-themed design optimized for a shoe store, but the system can be easily adapted for other products.
